## Summary

Front End Developer with strong foundation in **React** and a passion for building intuitive and dynamic user interfaces. Eager to contribute my skills to a dynamic team and make a meaningful impact.

## Projects

### Ecommerce

Interactive eCommerce Platform

#### Frontend:

- Developed a responsive and interactive user interface using **React, TypeScript, and Material UI**, enabling seamless product Browse, detailed views, and shopping cart management.
- Leveraged **Redux Toolkit** for robust state management and **RTK Query** for efficient data fetching, all structured within a scalable **Feature-Sliced Design (FSD)** architecture.

#### Backend:

- Engineered a **Node.js** backend with **Express.js** and **TypeScript**, interfacing with a **PostgreSQL** database using the **Kysely** query builder.
- Integrated the **CommerceTools TypeScript SDK** for core e-commerce functionalities and implemented secure **session-based authentication** via **Passport.js**, with **Zod** for endpoint input validation.

## Certifications

### Rsschool

🔗 [Certificate](#)

### JavaScript Foundations

Acquired **junior-level JavaScript proficiency** through comprehensive training, culminating in a team-developed frontend-only **React eCommerce application** managed with **Scrum methodologies** and **Asana**.

This project inspired me which I then independently and significantly enhanced by myself to the full-stack eCommerce platform detailed above.
